

10. OPERATIONS CONDUCTED DURING MONTH: Describe Drilling, Remedial Drilling, Redrilling, Stimulation, Testing and other Well Work Performed			
TWSP, RGE, SEC., B&M	WELL NUMBER	OPERATIONS CONDUCTED	MONTH END STATUS

Remarks: *(use additional pages if needed)*

GENERAL INSTRUCTIONS

This form is designed for submitting a complete and accurate account of monthly activity and performance of geothermal wells and production facilities on Federal leases. The report **must** include wells on the lease which have not been abandoned.

SPECIFIC INSTRUCTIONS

Item 9: Group wells together which are producing or injecting into the same reservoir or zone, and distinguish reservoirs or zones by name such as upper, lower, formation name, etc. Within each zone, list injection wells separately from production wells. In column 3, show the type of well reported (P=production, I=injection,¹ D=disposal,², WS=water supply, OB=observation, HE=heat exchange, O=other (specify under remarks)) and in parenthesis the current month end status for each well or completion (i=injecting, f=flowing, p=pumping, si=shut-in, susp=suspended, obs=observation, o=other (specify under remarks)). For heat exchange wells, report production in British thermal units, Btu, and production rate in Btu/hr. Production or injection rate is

the total amount of mass flow divided by the total number of active well hours.

Item 10: In reporting current operations, particular attention should be directed to 43 CFR 3264.2-4(e).

Remarks: Report in this section any environmental monitoring conducted, and the results obtained.

¹An injection well is used for injection of fluids which are not produced from the formation or reservoir.

²A disposal well is used to inject fluids into the same formation or reservoir from which they are produced.

Title 18 U.S.C. Section 1001, makes it a crime for any person knowingly and willfully to make to any department or agency of the United States any false, fictitious or fraudulent statements or representations as to any matter within its jurisdiction.

NOTICE

The Paperwork Reduction Act of 1995 requires us to inform you that:

We are collecting this information to allow us to evaluate the amount and quality of production you got from drilling geothermal resources on Federal lands.

We will use this information to analyze your operations and to compare your reported production with amount reported to the Minerals Management Service for royalty collection audit purposes.

Response to this request is mandatory once you begin drilling operations.

BLM would like you to know that you do not have to respond to this or any other Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

BURDEN HOURS STATEMENT

Public reporting burden for this form is estimated to average 1 hour per response, including the time for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding the burden estimate or any other aspect of this form to U.S. Department of the Interior, Bureau of Land Management (1004-0132), Bureau Information Collection Clearance Officer, (WO-630), 1849 C Street, Mail Stop 401 LS, N.W., Washington, D.C. 20240.
